Motion Designer — 01.2024 — NOW

Marketing & advertising · in-house

> Animated video ads and statics for social media and paid acquisition (Meta, TikTok, YouTube): hook, pacing, sound, subtitles, cut-downs for every placement.

> Kinetic type, shape and character animation in After Effects; planar tracking and roto in Mocha Pro; 3D elements in Blender.

> AI-generated scenes composited into video; key visuals and ad layouts in Figma and Photoshop.

> Built an in-house AI production pipeline

Pipeline & API
Several AI services joined into one workflow with Python and APIs.

Batch generation
ComfyUI workflows for footage, backgrounds and graphics, batch-processed.

Voice & lip-sync
Batch text-to-speech voiceovers with automatic lip-sync.
